

**IMPORTANT CHANGES TO YOUR  
PRESCRIPTION DRUG FORMULARY**  
*Effective January 1, 2008*

Dear Valued Member:

Beginning January 1, 2008, your prescription benefits will be transitioning to Catalyst Rx, a full-service pharmacy benefit management company serving five million members in all 50 states.

The 2008 Catalyst Rx *Preferred Drug List* for Sandia National Laboratories' employees and their dependents is a tool that helps guide you and your physician in choosing medications that allow the most effective use of your prescription drug benefit. As a result of this transition, differences between your current prescription drug formulary and the *Preferred Drug List* may affect you. Some medications will no longer be available as preferred products, but will still be covered at the non-preferred copayment level.

For your convenience, we have included a list of these products and provided preferred alternatives that are on the *Preferred Drug List* at the generic or preferred brand-name copayment levels. If you are currently taking a product that is listed as non-preferred, ask your physician if a lower cost preferred brand, generic, or over-the-counter drug might be appropriate\*.

**Please be aware that this is not an all-inclusive list and formulary changes can occur at any time. Benefit designs may vary with respect to drug coverage, quantity limits, step therapy, days supply and prior authorization.** For a list of preferred products, please log on to our Web site at [www.catalystrx.com](http://www.catalystrx.com). To log on, simply enter the following username and password in the "Members Login" section on the right side of the screen, then click "Login."  
**Plan Username: SNL; Plan Password: SNL.**

If you have any questions, please call our Customer Service Department at 1-866-854-8851. Customer Service Representatives are available 24 hours a day, seven days a week to assist you. Thank you and we look forward to serving you.

Sincerely,

Catalyst Rx

\* Most over-the-counter options are not eligible for benefits under most plans, but may offer additional savings and convenience.
